CENTRAL INTELLIGENCE AGENCY

25X1A2g

-2-

Building A: 20 x 20 x 12 m.; walls are stone; one part of the roof is made of tiles, the other part is sheet iron. The first floor contains 10 large cleansing machines of Czech origin, used in refining oil. The ground floor contains 8 roll mills and 4 seed presses, arranged in 4 sections. There is also a boiler room and an administration office.

Building B: Warehouse; 30 x 8 m.; walls are of stone up to a height of 2.50 m., thereafter of wood; tile-proof.

Building C: 20 x 8 m.; single story, stone; tile-roof; contains storage space for raw materials and finished products, and a rinsing room for raw materials.

The three buildings are linked by a narrow-gauge track.

Attachment: 1 sketch
